# Tips for Grass Seeding

## Ask for Red Hen Turf Farm's "Tips for Planting Grass Seed" ... Just a few of the topics covered are:

- ⇒ **TIMING is Important!** Seedings will tend to be less successful if you seed outside of the times of year that Mother Nature is most cooperative. The best time to seed a SUNNY AREA in our Region is typically August 15 to September 15. Second best time is a WINTER DORMANT SEEDING in mid-December (but as late as February or so). EARLY SPRING is the third best time. Late Spring and Summer Seedings are not typically very successful.
- ⇒ **METHOD OF SEEDING makes a big difference**
- ⇒ **STARTER FERTILIZER is a key element.**
- ⇒ **Purdue's Turfgrass Science Publications are EXCELLENT RESOURCES for HOME LAWNS.** Check out: [turf.purdue.edu/homeowner-publications](http://turf.purdue.edu/homeowner-publications)

**Looking for  
Sod Prices &

/ Other Lawn Care  
Products?  
We have Price Lists  
for THOSE TOO!**

**RED HEN'S SALES TERMS, CONDITIONS & GUARANTEE:** Prices subject to change without notice. SOD IS CUT-TO-ORDER & CANNOT BE RETURNED. ALL SOD SALES ARE FINAL. Sod is guaranteed to be in good growing condition at the time of sale; proper handling and watering thereafter are the purchaser's responsibility. Issues must be reported within 24 hours of receipt. Availability may be limited due to inventory or weather conditions. Ongoing remote technical support is available by phone or text and is generally provided at no cost. Sales tax will be charged unless a valid Indiana tax exemption certificate is on file at the time of ordering, and job-specific exemptions must be identified when the order is placed. Non-sod products are returnable within 30 days and may be subject to a 20% restocking fee. \$30 fee on returned/NSF checks. Net 30 accounts are subject to stated credit terms and applicable finance charges. Pallet and big roll tube credits are available only for pre-approved qualified customers.
